GREAT LAKES CALCIUM ADDS NEW PARTNER: STRAUCH CHEMICAL DISTRIBUTORS, INC.

FOR IMMEDIATE RELEASE

November 9, 2009

(Green Bay, WI) Great Lakes Calcium has entered into an agreement with Strauch Chemical Distributors, Inc. to represent Great Lakes Calcium.

Great Lakes Calcium, based in Green Bay, WI, is one of the leading suppliers of custom minerals in the Midwest. Strauch Chemical Distributors, based Burr Ridge, IL (southwest of Chicago), supplies a broad range of industrial raw materials and filtration products to Midwestern manufacturers, including a full range of mineral fillers, pigments, color concentrates and specialty additives.

“Strauch will assist us with calcium carbonate sales in key industrial markets,” explained Shari Aleksy, President of Great Lakes Calcium. “It’s an excellent fit for us and for them, plus it provides added value to our customers by having a single source for their manufacturing mineral needs.”

Strauch will represent Great Lakes Calcium’s industrial products in Wisconsin, Michigan, Indiana, Illinois, Iowa and Minnesota. “This is another step forward as we continue to grow our company,” said Aleksy. Great Lakes Calcium will continue to market it’s line of agricultural products direct to customers.
